since 2018

**Takasago – UNIMAS** Educational Forest

# TREE PLANTING PROGRAM

**6<sup>th</sup> OCTOBER 2018**

**UNIMAS West Campus, Kota Samarahan**

*Joint initiative by*

Japan-Malaysia Association

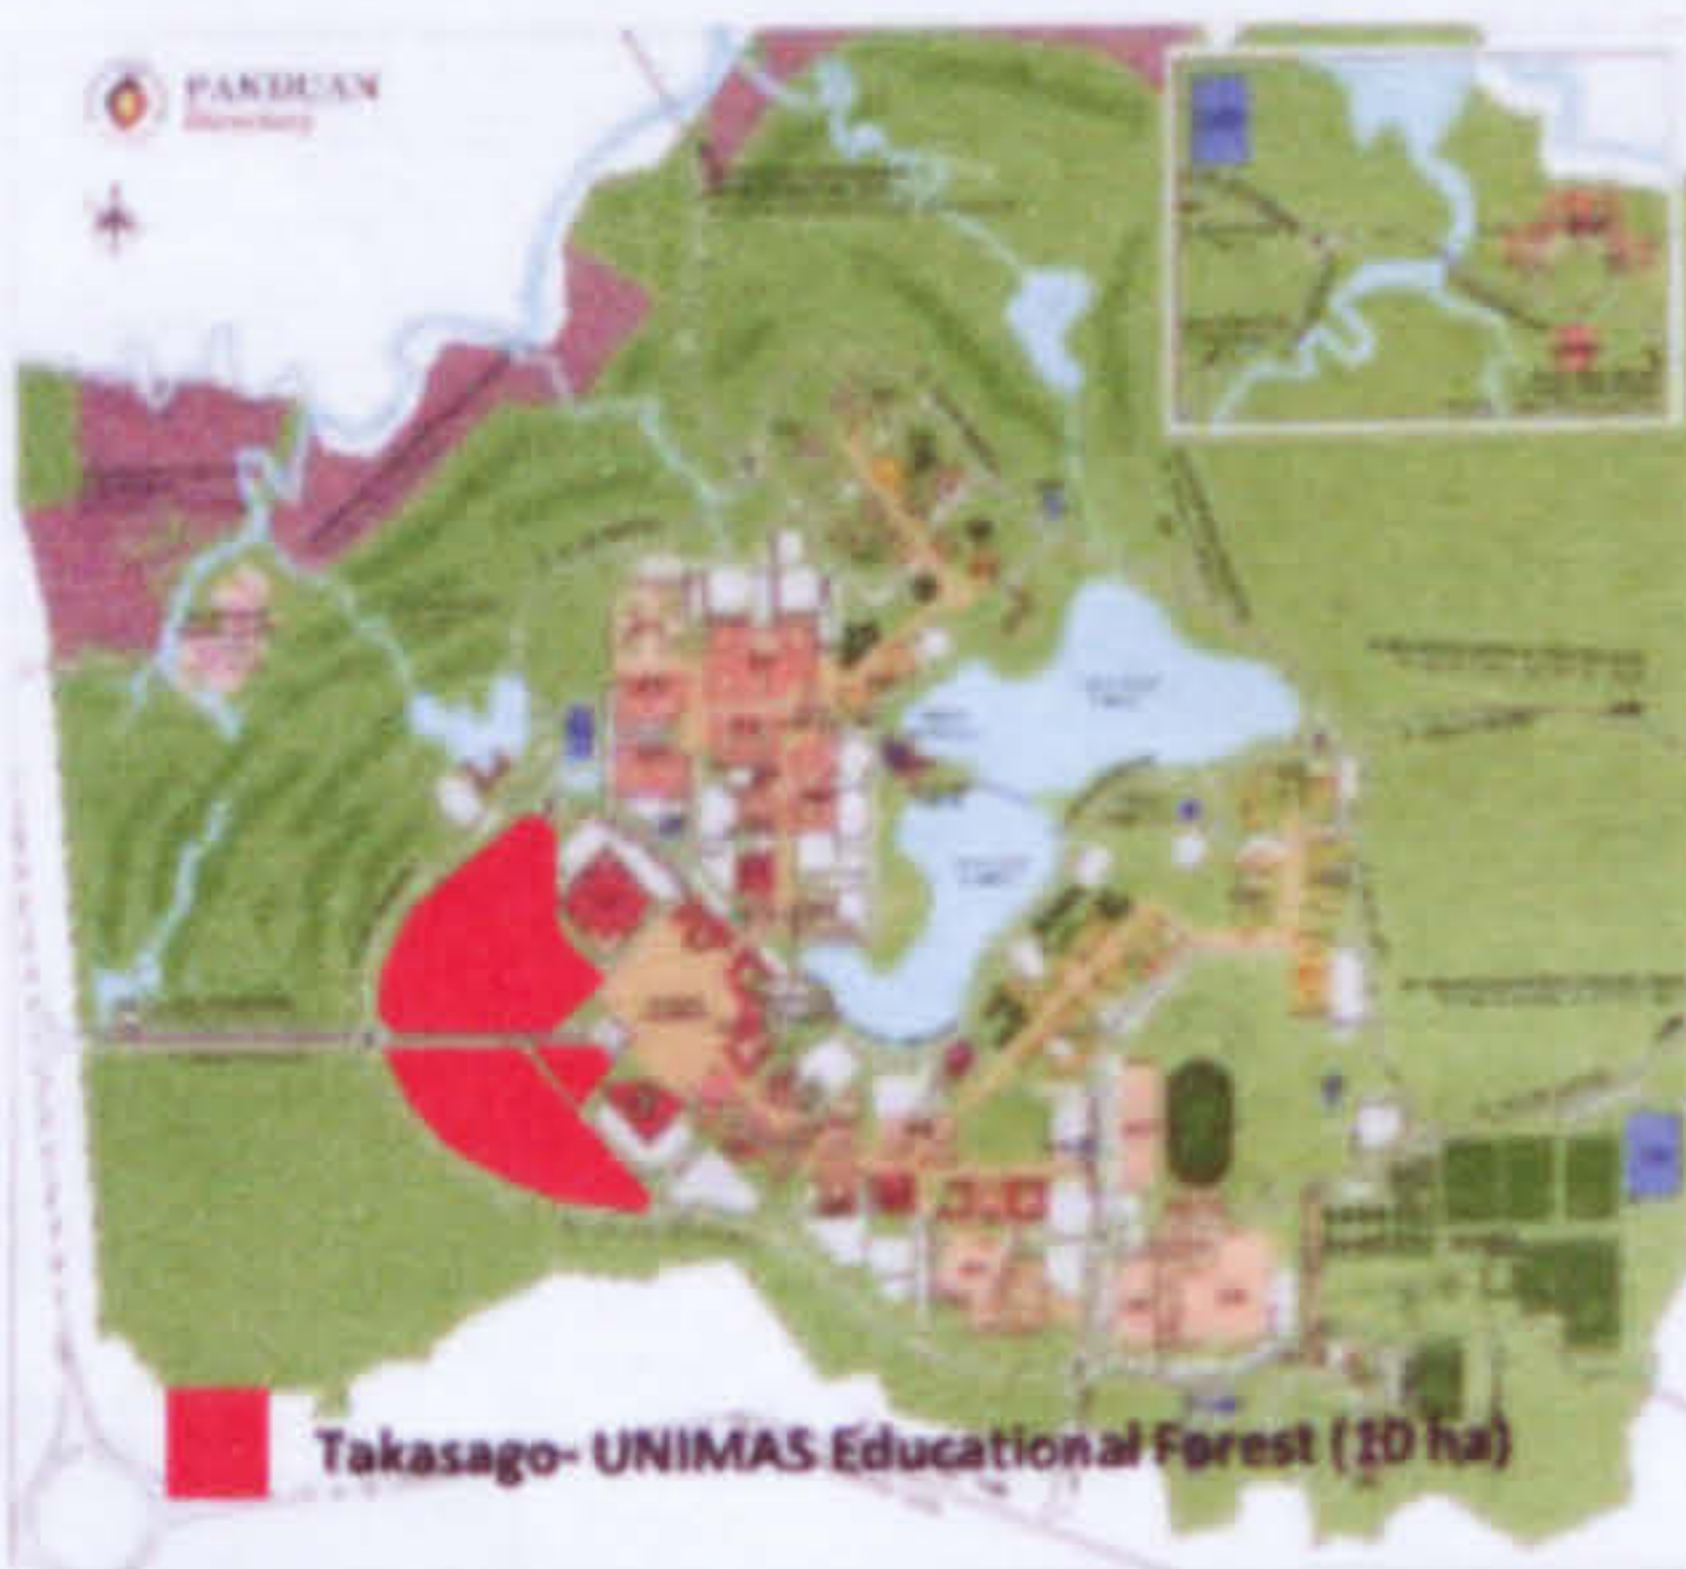

TAKASAGO THERMAL ENGINEERING

# Takasago-UNIMAS Educational Forest

## タカサゴの森

est. 2018

### PROJECT BACKGROUND

This project is a joint collaboration between **Universiti Malaysia Sarawak (UNIMAS)**, **Takasago Thermal Engineering Co., Ltd.** and **Japan-Malaysia Association (JMA)** with **Forest Department Sarawak** as the joint supporting organization of the project

**Project Aims:** To become an exemplary model forest for teaching, research and training of young generation towards promoting effort in restoring and conserving the tropical forest in Sarawak. With the theme of “Takasago-UNIMAS Educational Forest: empowering the importance of forest through education”, the tree planting activity in return could create and develop potential environmental education programme among UNIMAS students in the project site for the long run. From this project, it is expected that around 25,000 tree seedlings will be planted within the whole area by the year 2022.

### Recent activities

- Tree planting program by students: Go Green Program (Mac 2018)
- Establishment of Educational Tree Nursery for education and research purpose
- Field practical exercise by 2<sup>nd</sup> and 3<sup>rd</sup> year students from Plant Resource Science Program in the project area
- Collection of tree seedling sources from UNIMAS Arboretum and reforestation project sites by JMA

# **Tree planting ceremony at Takasago-UNIMAS Educational Forest**

**6 October 2018**

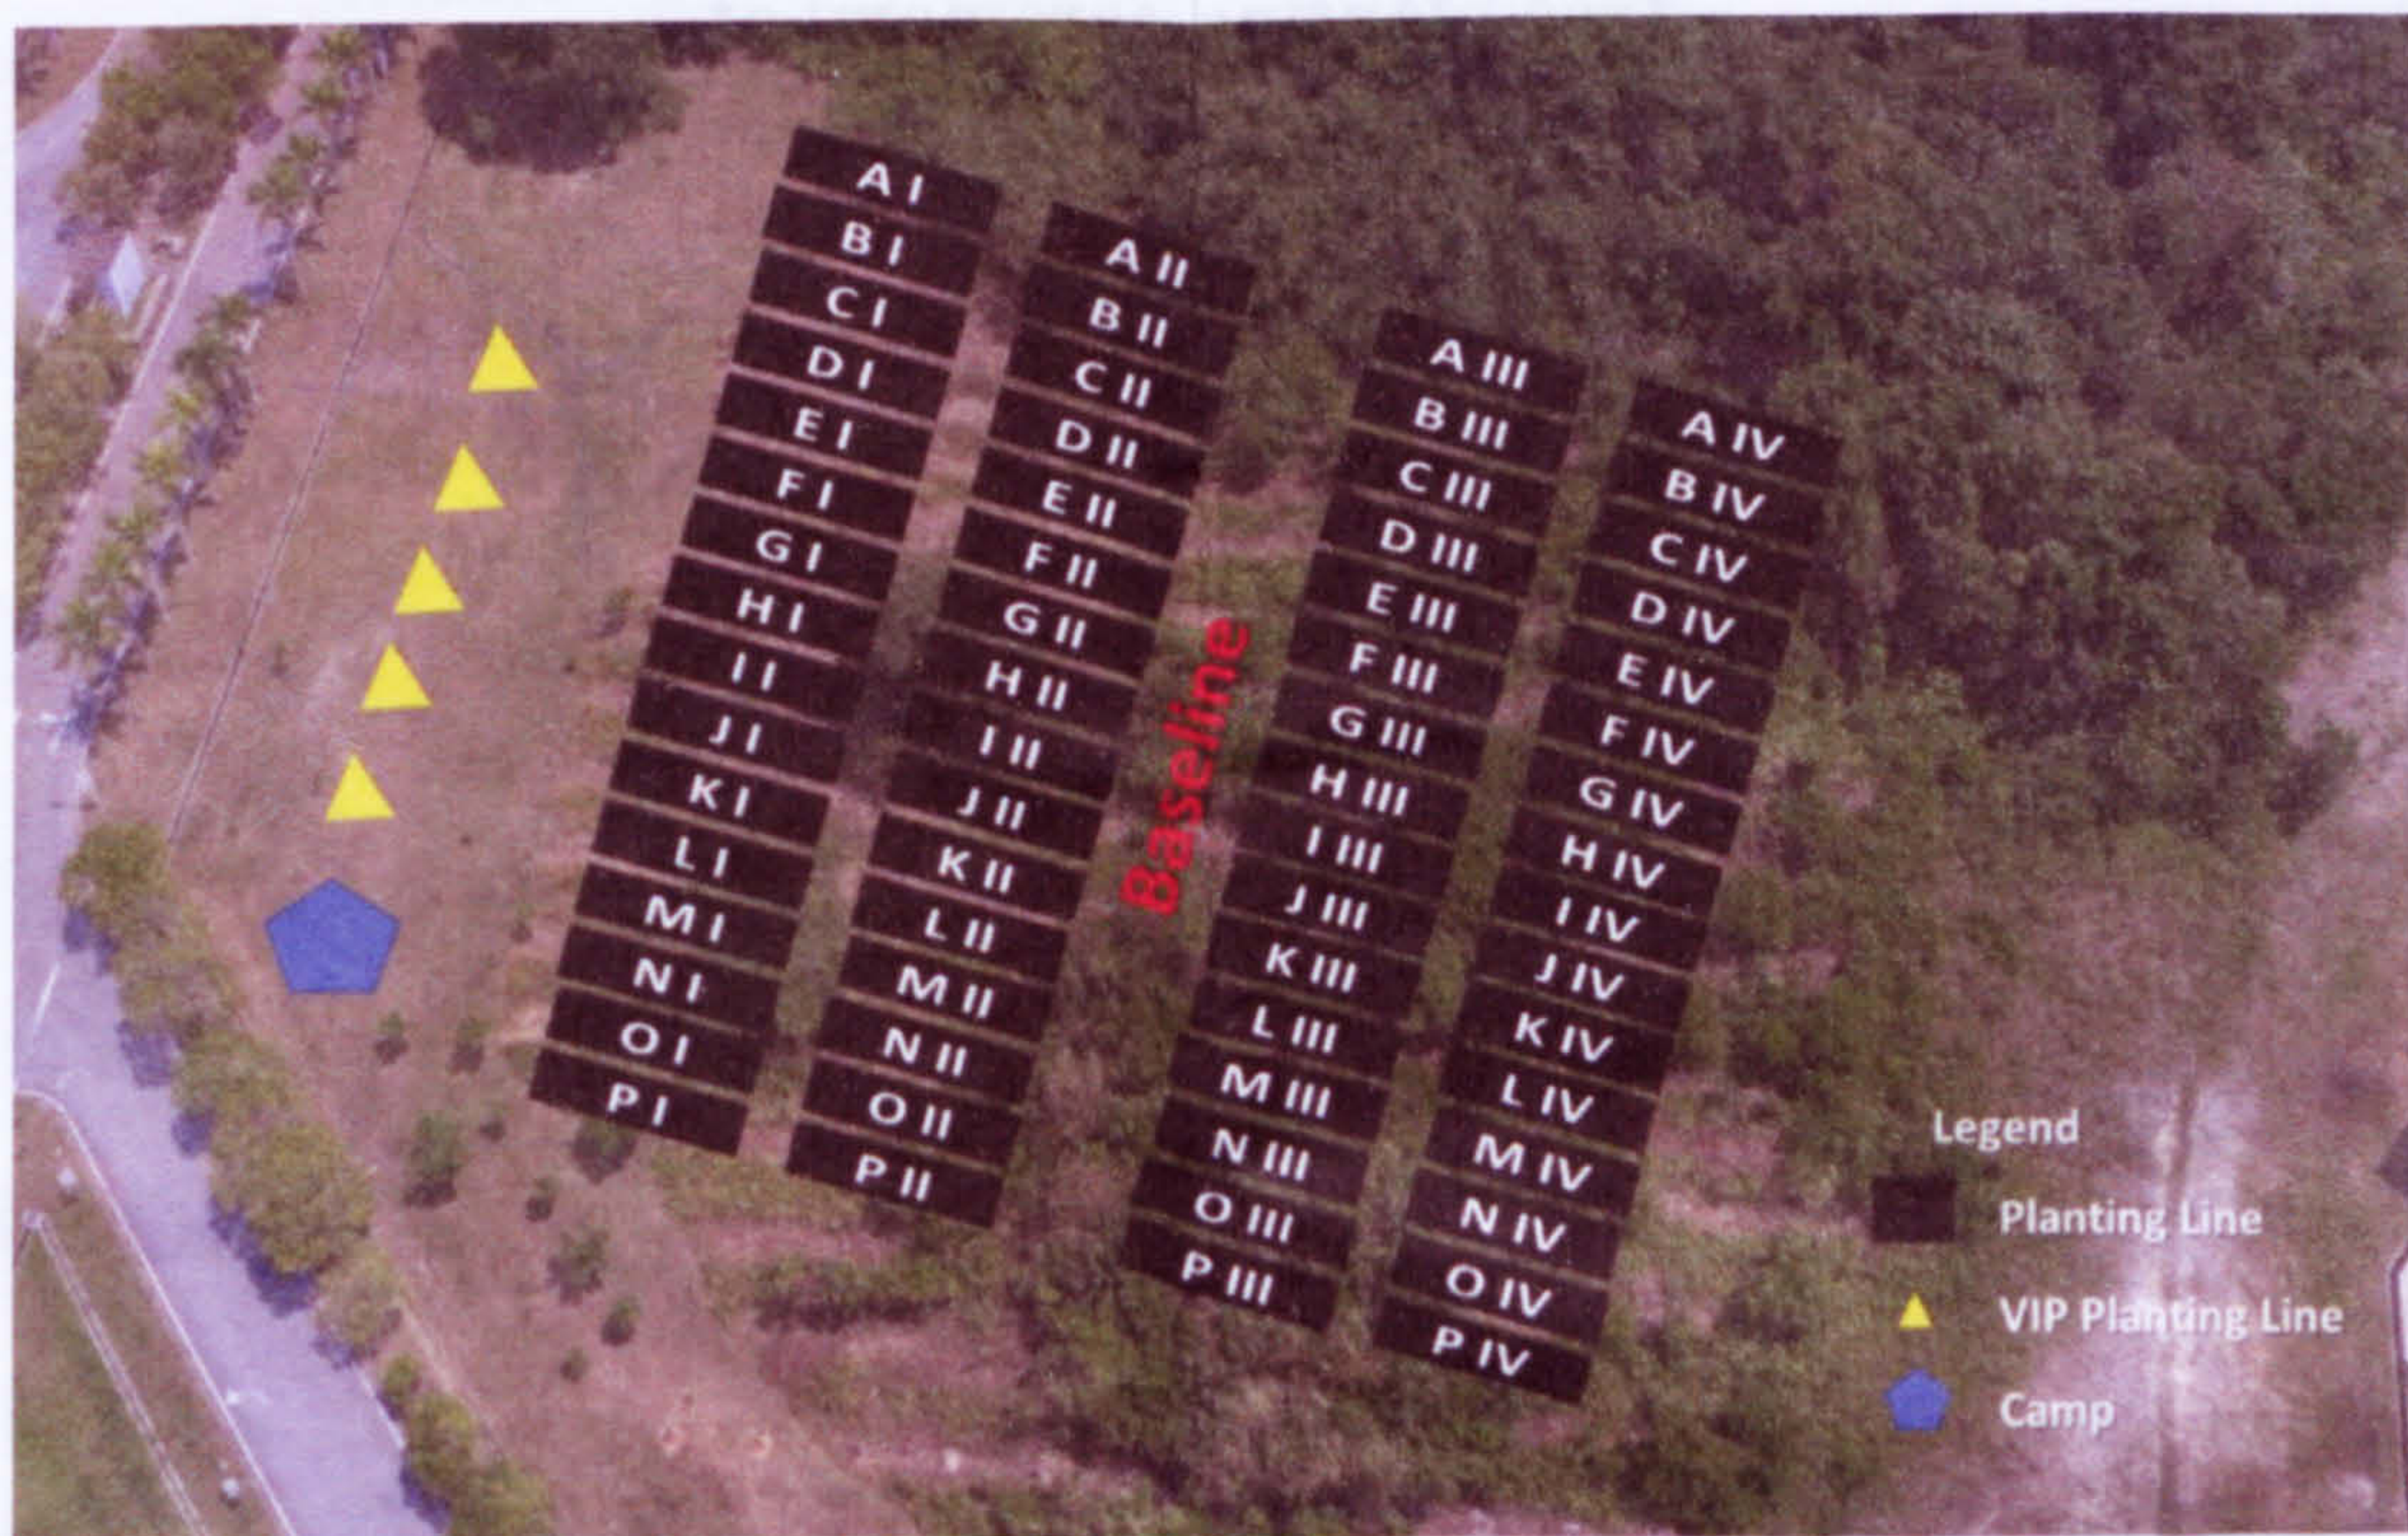

**Venue:** UNIMAS Campus/ DeTAR Putra, UNIMAS

## **Program**
